

PRESS RELEASE

March 2025 – 01/2025

PLEIADES - project website now live

UK, March 5th, 2025 – we are excited to announce that the official website of PLEIADES is now live!

The new website serves as a central hub for all information related to PLEIADES, providing insights into our mission, objectives, and latest developments.

Visitors can explore key project details, access resources, and stay updated on upcoming activities. With a user-friendly design and intuitive navigation, the website aims to engage stakeholders, researchers, and the general public.

We invite everyone to visit the website at <https://pleiades-project.eu/> and learn more about PLEIADES. Stay connected with us for future updates!

About PLEIADES

PLEIADES – Advancing Aerospace Composites through Induction Welding and New Vitrimeric Formulations Enhanced by Integrated Photonic Sensors, Providing Data to Digital Supply Chain, SHM, Maintenance – is an EU-funded project bringing together different disciplines and key technologies that will contribute to advancing further composite aerostructures and promote the digital transformation in aviation.
